I take this means of placing myself before the people of Washington city and the readers of THE STAR. I wish to make a few statements and I hope you will read on and make a note of what I have to say, as you will find that you will soon have occasion to use me: I know that people are often deceived by bold and un scrupulous statements through the press. I know, too, that the result of this course recoils upon the offender and no real good can be obtained by talking unless you mean what you say and can back your claims by indisputable proof. I have learned that every statement should be a sacred pledge to the people, and, acting under this conviction, I take pleasure it giving you some points: I have rented the two new buildings, 1510-12 7th st. n.w., and am in a position to offer you many articles at less than regular price. assertion that a majority of those who read this card will not forget it. WASHINGTON, D. C., JAN. 30, 1890.

Mr. THOMAS G. HENSEY.

Secretary Industrial Savings and Loan Association.

Dear Sir: Your check for \$500 for "Repurchase" of ten shares of stock in your association, the property of Charles E. H. Holmes, my late husband, who died December 9, 1889, at Garfield hospital, was duly received. I wish to thank your board of directors for prompt-I wish to thank your board of directors for promptness in this matter.

My husband's savings in your association were \$40, for which, by the plan you are operating under, I received \$500.

The loaning system of which my late husband availed himself was in accommodation to him whereby his savings were not only guarded but muliplied twelve times.

For the trifling sum of 25 cents a month on a share I received \$500, but had my late husband lived and desired to have made a settlement in cash in a given period four-fifth or more of his payments would have been returned to him.

I am gratefully yours,

OKLAHOMA BILL IN THE SENATE.

THE SENATE.

across the Detroit river at Detroit and across the Mississippi river at Natchez were reported back adversely from the committee on commerce. The first was indefinitely postponed and the second was placed on the calendar.

On motion of Mr. Allison the Senate bill to The Valleys of the Columbia and Wilamend and alter the act of August 6, 1888, authorizing the construction of a railroad wagon and foot passenger bridge across th Mississippi river at Burlington, Iowa, was taken from the calendar and passed. It ex-tends for two years from the passage of this act the time for beginning and finishing the bridge, and it makes other changes in the On motion of Mr. Frye, Senate bill appro-

priating \$75.000 for a public building at Lewiston, Me., was taken from the calendar and passed.
Mr. Harris moved an adjournment from day till Monday.

MR. BLAIR OBJECTS. Mr. Blair objected to the motion, saying that the river front to 3d street. he had not finished his remarks on the school bill yesterday; that he hardly hoped to do so tomorrow. He therefore hoped that the Senate would not adjourn over till Monday.

Mr. Hawley suggested that tomorrow be assigned to debate on the school bill and that no other business be done. He added that when Senators adjourned over it was not to Mr. George remarked that Fridays and Satur-

days were the busiest days he had. Mr. Blair declined to accept Mr. Hawley's prop osition, and said that if Senators desired to ig-nore the education bill and not to attend the sessions when it was under discussion could do so on their responsi bility, but he would not be a party to it. He withdrew his opposition to the motion to ad-journ over, and the motion was agreed to. On motion of Mr. Call the House bill grant ing the use of certain lands to the city of St. Augustine, Fla., for a public park was taken up

THE OKLAHOMA BILL. The Senate then took up the bill to provide a

temporary government for the territory of of the bill, which had been begun yesterday. After the reading of the bill was finished various formal amendments were offered and agreed to.

Mr. Vest called attention to the provision in having declared their intention to become citizens are permitted to vote at the first election. He admitted that that was the rule in the oralways thought it

Oklahoma were there now—40,000 or 50,000 of them. He did not think that the committee had done wrong in following the established rule. Mr. Reagan condemned the demagogery which had cheapened the right of suffered with the relationship of the rel frage until the welfare of American institu tions were endangered.

THE HOUSE.

The democrats this morning carried out their policy of silent protest against the rulings of the Speaker by declining to vote upon the question of approving the journal. This instrument was, however, approved by a vote of yeas 153, nays 0 (the constitutional quorum being counted by the Speaker.)

THE NEW CODE REPORTED. Mr. Cannon (Ill.), from the committee or rules, reported the new code of rules and it was ordered printed and recommitted. Mr. Canpon then offered a resolution viding for the printing of 1,000 copies of the new code for the use of the House.

Mr. Cummings (N.Y.) facetiously offered an amendment (which was not considered) providing for the printing of 2,000 copies of the general parliamentary law under which it was alleged that the House was governed. Mr. Cannon's resolution was adopted. The Senate direct tax bill was laid before the

House and referred to the committee on judiciary.
Mr. Anderson (Kan.) introduced a bill for a classification of public lands and for a revision of the laws relating to the public lands. Re-

THE OKLAHOMA BOOMERS. Mr. Tarsney (Mo.) offered a resolution reciting that it is charged that many hundred individuals entered Oklahoma in violation of the act of Congress and of the proclamation of the President, and directing the Speaker to appoint a select committee of five members to investigate the matter. Referred to the committee on rules.

The following bills were introduced and re ferred: By Mr. Williams (Ill.)-Directing the Secretary of the Treasury to purchase from time to

time at the market price \$4,000,000 worth of silver bullion per month and to cause the same to be coined, as fast as purchased, into standard silver dollars. By Mr. Hayes (Iowa)—For the erection of a public building at Muscatine, Iowa.

lamette Rivers Submerged.

PORTLAND, ORE., Feb. 6 .- This morning the Columbia river at this point is at a standstill and it is hoped that no further rise will occur. At Carvallis and Oregon City the river is reported falling at the rate of one inch per hour. The water in the city of Portland is the highest known since 1876, but so far it has been confined to a comparatively small district, but though causing much inconvenience, has occasioned no serious damage. The water last night was twenty-eight feet above high-water mark and extended four squares back from

The flood has been caused by the simultaneous rising of the Willamette and Columbia today, and that he expected to close his speech rivers, which are usually at the high stage several months apart. The main flood has been in the Willamette, but the usual stage of water in the Columbia prevented the former river running off, as it usually does. More serious damage has been occasioned throughout the Willamette valley than here. Bridges were carried away at Salem and Oregon City and many small houses built near the river washed away. Communication with these points is very uncertain, and the full extent of the damage is a matter of conjecture. THE SCENE IN PORTLAND.

A large part of the territory flooded in Portland is low ground, not occupied by buildings, but in the business streets submerged, where the lower stories of a number of blocks are flooded, the subsidence of the water may reveal unsuspected damage to the structures, as a strong current is running. The greatest danger apprehended is that one or both of the Oklahoma, and the clerk continued the reading bridges crossing the Willamette river—wooden structures-may be carried away by the high water and driftwood. Should this happen it is feared that the steel railroad bridge below would go out, as the stage of the water is too section 5 under which persons of foreign birth high to permit of any drift passing under it. Aside from these contingencies the real damage to the city will be trifling. The isolaganization of other territories, but he had tion of Portland from the east for the past of this city who has just returned from the logthree days was not caused by floods, but by ging camps says: "Never in my experience as a land stides along the Columbia river obstruct-Mr. Platt, who has charge of the bill as ing the tracks and destroying poles and wires chairman of the committee on territories, re- on the Oregon railway and navigation commarked that there was no practical difficulty in pany's lines. No trains have run out of here the matter. The people who were going to vote in except to Tacoma. The only other travel has THE STEEL BRIDGE THREATENED.

At 11:25 the man in charge of the steel bridge suddenly called out for all hands to get medical aid the lumbermen are, of course, denied any of the remedies which are prescribed off it. His warning was preceded by and the rollers had slipped out of place. The water has risen to such a height that the center caissons cannot be seen and a very slight rise will carry the water up to the horizontal works.

FLOOD NOTES. The wagon bridge across the Willamette at 1,000 feet long and cost \$75,000. No less than ten millions of logs have been

swept away on the Willamette and Columbia

rivers in the last two days. Large quantities of sawed lumber and a number of saw mills on the rivers have also been carried away. Southern Pacific officials do not venture an opinion as to when their road will be open west. All communication south and east of here has been cut off for five days and no trains are arriving over the Southern Pacific or Union Pacific. Trains are running to Ta-coma, Wash., over the Northern Pacific, but a heavy storm in the Cascade mountains has cut off communication to the east.

It is impossible to closely estimate the dam-

age at present, but it will probably reach half a million dollars.

The rain has ceased throughout the Willamette valley and the river at this point is at a

The Oregonian and Telegram were compelled to move their business offices further back from the river last evening, there being at present several feet of water on the first floor. The editorial rooms, which are on the second floor, are reached by boats. A dispatch from McMinville, Ore., states that

the town of Wheatland is almost swept away, much stock drowned and a large amount of grain destroyed. Bridges have been carried away at Oregon City, and many small houses built near the river were washed away. Communication with Salem and Oregon City is very uncertain and

the full extent of the damage done at those points is a matter of conjecture. All the merchants along the water front and for two streets back from the river have been compelled to suspend business and move their stocks to higher ground. The water rose so rapidly that many of them were unable to move their goods and in consequence heavy damage

will result. Throughout the Willamette valley heavy losses are reported. Many bridges have been washed away and a large amount of grain stored along the river has been ruined.

About 7 o'clock this morning a warehous came floating down the river and passed under both bridges. The roof had been taken off and piles of freight lay exposed. The warehouse was about 300 feet long and is supposed to have come from Oregon City. Later in the day a barn filled with hay came floating down.

Most of the docks are safe enough even for a higher rise, but some of them are somewhat shaky. The ships in the harborare all securely moored, and nothing except the great coll-tion of driftwood can break them loose. The Pacific postal company secured eastern wires this morning, but could not get any news from the south further than Corvallis.

Telegraphic communication with the east is completely cut off except by way of Vancouver upon the Canadian Pacific system. There is no delay to the traffic on the Canadian Pacific railway over their entire system. THE MAIL GONE BACK. TACOMA, W.T., Feb. 6.-The Williamette river is higher than for twenty years past. Many

bridges are threatened and there has

been great damage done in the tire valley. The revenue cutter Richard Rush with the northern mail from San Francisco was unable to cross the Columbia river bar, came back to Tacoma and has taken the mail back to San Francisco. A special from Portland says: Meager news of great suffering in the mining regions has been received. A special from Gold Run gives a gloomy view of that camp and others in the foothill of the Sierras. The rain storm has cased there, but the snow lies heavy and many of the small mining posts are out of provisions. One man, who was left to guard the India Hill mining company, was so reduced by starvation by carried out on a litter. Gold Run was threatened with starvation, but when food was the sace \$20,000 and the assets \$20,000.

nearly gone a railroad succeeded in getting a train load of supplies through.

WIRES AND CABLES BROKEN. Onicago, Feb. 6.-Advices via the Western Union telegraph company from the far northwest indicate little improvement in the telegraphic situation there. After the wires had been broken down by the snow slides on the regular route to Portland the company managed to get a wire through to Tacoma over the Cascade division of Northern Pacific road and thence down to Portland. This held up only a short time and reports this morning are to the effect that a heavy wind storm on the Cascade division blew down many large trees, breaking wires and disorgan-izing the service. The flood in the Wilamette river at Portland also carried away the cable of the company which was laid across it, making the break in the connection still more serious.

300 MINERS BURIED.

Many are Rescued and Search Progressing for the Others.

London, Feb. 6.-An explosion in a colliery at Abersychan, Monmouthshire, occurred today by which three hundred miners were imprisoned. Rescuing parties have succeeded in bringing two hundred of the imprisoned men to the surface, some of whom were more or less injured. The exploration of the mine proceeds in the hope that the other imprisoned

men may be found and brought out. Forty bodies of those who perished have been taken from the mine and fifty of the miners are still entombed. The owners of the mine estimate the number of killed at 120. It is thought that it will be impossible to rescue the miners who are still imprisoned.

How an Ohio Town Went for Petty Offenders and Brought Them to Book.

CHILLICOTHE, OHIO, Feb. 6.-For several months Point township, this county, has suffered from an epidemic of crimes. Thursday night over one hundred of the best citizens met at Spout Springs, with attorneys as legal advisers, and formed a vigilance committee, though it is called the arresting and jailing club. A dozen stalwart farmers were sworn in as special constables. Tuesday morning court was convened and from that until 5 p.m. the constables were busy bringing in offenders. Hundreds were out to see the fun. The total number of arrests for the day was twenty-six. Theft, disturbing schools and church services, wife whipping and drunkenness were charged. Not one escaped punishment. Some were fined, some bound over to a higher court, some were imprisoned and two were sent to the Cincinnati work house.

GRIP AND LOGS.

Wisconsin Lumbermen Having a Bad and Profitless Winter. OSHROSH, WIS., Feb. 6.-An old lumberman

lumberman have I seen logging operations so retarded at this time of the year. The snow is deep in the woods, but the weather has been most unfavorable to successful work. In one of the camps, out of a crew of over sixty men, nearly one-half were completely prostrated with the grip. The disease does not seem to have reached the lumber districts until recently, by physicians, and although everything possitwo short, clicking sounds. The throng, numbering hundreds, immediately dispersed.

The mines are twelve miles from the Mississippi river. They are twelve miles from the Mississippi river. They are ten times larger than the Vermilion mines, which sold for \$8,000,000. SPECIAL NOTICES. A WEEK OF PRAYER-THE BOARD OF

A WEEK OF PRAYER—THE BOARD OF Directors of the Central Union Mission call upon the friends of the work to earnestly pray that a door may be opened where the crowds of perishing ones who are attracted to the mission may be accommodated. Hundreds are turned away weekly for lack of room, and the police have warned the directors against allowing the hall to be crowded as heretofore. Let this first week in February be a week of supplication and prayer that God may give the city a permanent home of sufficient capacity for its mission work. Special services will be held at the main hall and branches all the week. The city pastors are also requested to make this matter a subject of prayer in their church services.
